Local expertise global network

Triton's extensive worldwide network and large fleet of intermodal equipment help keep global commerce moving forward.

Our containers are seamlessly integrated into the global supply chain and help facilitate the safe and efficient transport of essential goods.

Lease structures tailored to our customers' unique operating and financial requirements

We offer our customers a variety of lease options designed to help them manage uncertain cargo demand, balance trade flows, respond to seasonality and finance their growth.

We buy and sell equipment

Triton Container Sales (TCS) is the global leader in sales of new and used dry containers, refrigerated containers, gensets, open-tops, flatracks, and chassis.
